CONNECTING OUTDOOR SPACES

We know that sustainability is as important to you as it is to us – and that’s why we’ve made it easy for you to stay at a hotel that shares your values. By staying in Crowne Plaza Geneva it means that you are part of a worldwide effort to protect our environment.

ENVIRONMENT

We are committed to a virtuous approach to eco-responsibility through the IHG Green Engage tool, which allows us to measure and optimize energy and water consumption, reduce waste, and improve our environmental impact every day. We are eliminating single-use plastics, reducing paper usage, and minimizing food waste.

COMMUNITY

The hotel is involved with several local associations with which we organize awareness workshops and set up donation programs. Giving to those in need through these programs is an excellent way to take action by helping both those in need and considering the environment.

COMMITMENT

Advocating for sustainable development is not enough: we also actively work towards more eco-friendly tourism. By installing recycling bins and implementing programs like Greener Stay, Giving for Good Month, Bike to Work, and Sustainable Tourism, we contribute to waste reduction and water and energy savings.

COMMITTED TO SUSTAINABILITY

Environment

RECYCLING

Nespresso capsules
